Seller Addendum to Master Procurement Agreement

Prolec-GE Waukesha, Inc. and Security Camera Warehouse, Inc.

This Seller Addendum (the "Addendum") is entered into as of the Effective Date of, and forms part of, the Master Procurement Agreement effective October 26, 2026 (the "Agreement") between **PROLEC-GE WAUKESHA, INC.** ("Buyer") and **SECURITY CAMERA WAREHOUSE, INC.** ("Seller"). Capitalized terms not defined here have the meanings given in the Agreement. "Attachments" means Attachments 1 through 6 to the Agreement, including the GE Vernova Terms of Purchase Rev. C (Attachment 2) and the Security and Data Protection Addendum within Attachment 4. The Agreement and the Attachments remain in effect except as modified below.

1. Precedence

This Addendum controls over any conflicting provision of the Agreement, the Attachments and any Order, notwithstanding any statement in those documents that they take precedence over other terms. As between the remaining documents, Attachment 1 (Scope of Work, Bill of Material and Drawing) controls over Attachments 2 through 6. A limitation or exclusion of liability in this Addendum applies notwithstanding any contrary provision elsewhere.

2. Scope of Work

The Work consists of the goods and services expressly listed in SCW Proposal 20261013-12062_v9 dated October 13, 2026, Project 60367734587 (the "Proposal"), at the prices stated there: equipment $5,830.00, installation $9,285.00, grand total $15,115.00, exclusive of sales and use tax. The Proposal is incorporated as Attachment 1 and replaces the line items, quantities and prices in Attachments 1-A and 1-B, which were transcribed from an earlier version (the earlier version priced the I-001 and I-003 camera installation at $1,900.00 and the NVR list price at $750.00; the Proposal's $1,990.00 and $705.00 control). The Background and Objective paragraphs of Attachment 1-A and references to a Request for Proposal or Quotation are Buyer's statements of purpose and are not specifications of the Work. Attachments to the Proposal, including the site map and the interlock drawing (prolecinterlocks1.pdf), are illustrative and do not expand the Work. Goods, services, materials and labor not expressly listed, including lift or aerial-platform work, are excluded and may be added only by a written change order signed by Seller and Buyer's designated representative, priced at Seller's then-current rates. Proposal pricing is valid for an Order issued on or before November 6, 2026; thereafter equipment pricing is subject to re-quote at Seller's then-current pricing. The Work is complete, and installation is invoiced, when Seller signs its Certificate of Completion at the end of the installation. Connection and programming of Buyer's control system is not a condition of completion.

3. Nature of the System

Buyer acknowledges that the camera-based detection system is a video surveillance and analytics system that supplements, and does not replace, Buyer's established procedures, engineered interlocks, lockout/tagout and human verification for energized transformer testing. The system is not a safety-rated or safety-certified device and is not designed, represented or warranted as the sole or primary means of personnel protection. Detection depends on camera placement, field of view, lighting, obstructions and environmental conditions, and Seller does not warrant that the system will detect every person or event. Seller's Work ends at the NVR relay outputs. Buyer is solely responsible for the design, programming, testing and operation of its process, control and interlock systems and for any action taken or not taken in response to a signal from the system. The objective in Attachment 1-A of "automatically de-energizing testing operations" describes a function of Buyer's control system, not of the Work. Buyer shall defend and indemnify Seller against third-party claims to the extent arising from Buyer's use of the system as a primary safety interlock or from the programming or operation of Buyer's control systems.

4. Limitation of Liability

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THE AGREEMENT, ANY ATTACHMENT OR ANY ORDER: (a) NEITHER PARTY SHALL BE LIABLE TO THE OTHER, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE), INDEMNITY, STRICT LIABILITY OR OTHERWISE, FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY OR PUNITIVE DAMAGES, OR FOR LOSS OF PRODUCTION, LOSS OF USE, DOWNTIME, LOSS OF DATA OR LOSS OF PROFIT OR

REVENUE, HOWEVER ARISING; AND (b) SELLER'S TOTAL AGGREGATE LIABILITY ARISING OUT OF OR RELATING TO THE AGREEMENT AND ALL ORDERS, INCLUDING UNDER ANY INDEMNITY, WARRANTY, LIQUIDATED DAMAGES OR ADMINISTRATIVE FEE PROVISION, SHALL NOT EXCEED TWO TIMES THE TOTAL PRICE PAID OR PAYABLE UNDER THE ORDER GIVING RISE TO THE CLAIM.

These limitations do not apply to (i) a party's fraud, gross negligence or willful misconduct; (ii) Seller's obligation to indemnify third-party claims for bodily injury, death or damage to tangible property to the extent caused by Seller's negligence, for which Seller's liability is instead limited to the limits of insurance Seller is required to carry under Section 7; or (iii) a party's breach of confidentiality. Seller's indemnity obligations are fault-based: Seller indemnifies only to the extent a claim arises from the negligent or wrongful acts or omissions of Seller or its subcontractors, and not to the extent caused by Buyer, its other contractors or the operation of Buyer's control systems. Buyer's obligation to pay for goods delivered and services performed is not limited by this Section.

5. Standard Catalog Equipment

The goods are Seller's standard catalog products (SCW-brand equipment produced to Seller's specifications by its contract manufacturer, and third-party accessories), sold to all customers in the same configuration and not designed, modified or manufactured for Buyer. Accordingly, the following provisions written for goods custom-manufactured to a buyer's specification do not apply to the goods or to Seller: Attachment 2 Sections 2.1 (last two sentences, most-favored pricing), 2.3(b) and (c) (replacement parts and obsolescence), 5.2 (embedded software resale and sublicense rights), 7.4 (Quality Administrative Fee), 15.2(b) (material-content and PFAS warranties, except to Seller's knowledge based on its contract manufacturer's declarations), 18.1 through 18.3 (business continuity, supply chain security and C-TPAT), and 22.2 to the extent it incorporates guidelines not delivered to Seller in writing; and Attachment 4 Sections 2 and 3 to the extent they would prohibit device firmware containing open-source components, Section 10 (transition services beyond providing credentials and as-built documentation), and the Security and Data Protection Addendum, the parties acknowledging that Seller receives only site drawings, network details and system credentials.

SCW-brand goods carry Seller's standard three-year product warranty, and third-party accessories carry the applicable manufacturer's warranty passed through to Buyer, in each case alongside Seller's warranty under Attachment 2 Section 9 for twenty-four months from delivery. Embedded software is licensed under Seller's standard end-user license terms. Seller's standard configurations, templates, know-how and tools, and improvements of general application, remain Seller's property; Buyer owns the facility-specific drawings and alarm-zone configurations prepared for its Test Bay. Buyer consents to Seller's use of its regular installation subcontractors for on-site cabling, conduit and mounting work, provided they comply with Attachment 3 and Seller remains responsible for them.

6. Payment and Termination

Payment is due sixty days end of month from the date of invoice, as stated in Section 3.1 of the Agreement and Attachment 1-A. Seller will invoice goods upon shipment and installation and services upon signature of the Certificate of Completion. Attachment 2 Sections 2.2(a) through 2.2(c) (Net 150, batched payments and early-payment discounts) do not apply. Buyer may withhold only the disputed portion of an invoice and may set off only undisputed amounts owed under the same Order. If Buyer terminates for convenience or cancels after Seller has shipped equipment, Buyer will pay for goods delivered, Seller's standard restocking fee for returnable goods, the price of non-returnable goods, services performed through the termination date, and reasonable demobilization costs. Seller's cure period under Attachment 2 Section 11.2 is thirty days.

7. Insurance

Seller's insurance as shown on its certificate of insurance delivered to Buyer with this Addendum satisfies Attachment 2 Section 12.2 and Attachment 3 Section 5.4.1. Seller will name Buyer and its affiliates as additional insureds on its commercial general liability policy, provide a waiver of subrogation on workers' compensation, and maintain coverage for two years after completion of the Work. Professional liability and all-risk property coverage are not required.

8. General

The Agreement, every Attachment and every Order are governed by the laws of the State of Wisconsin as provided in Section 5.4 of the Agreement, and all disputes are resolved under Attachment 5, notwithstanding Attachment 2 Section 20 and Attachment 6 Section D.6. Either party may terminate the Agreement on sixty days' written notice under Section 2.1. Notices may also be given by email to the addresses in Section 5.5 of the Agreement with confirmation of receipt. Buyer confirms that Prolec-GE Waukesha, Inc. is the contracting party under the Agreement and all Attachments, including Attachment 6, and that "Prolec Energy" as named in the Proposal means Buyer. This Addendum may be signed in counterparts and electronically. Except as modified by this Addendum, the Agreement and the Attachments are ratified and remain in full force.

Proposed Solution

HEADEND: MDF

Networking or Headend

	QTY	COST
Admiral 8 Channel 4K NVR v3 ADM8P8-V3R **5 connected devices:** I-001 thru I-004, RA-I-005	**1**	**$705.00**
Installation and provisioning of the Network Video Recorder (NVR), including patch panel termination if installed in customer or SCW provided rack, full system configuration, and final review by the SCW Tech Support Team. This includes establishing connectivity to the client-provided LAN and configuring remote viewing, provided the client supplies an active ISP connection.	**1**	**$398.00**
Hard Drive, 4TB	1	$270.00
Standby UPS & Battery Pack, 6 Outlets, 350VA	1	$210.00
WattBox 250-Series Wi-Fi Surge Protector | 2 Controlled Outlets	1	$285.00
Rack Mount Ears, 1U	1	$25.00
Networking or Headend		**$1,893.00**

Other Equipment

	QTY	COST
Server Rack Enclosure, 6U 6URackCabinet	**1**	**$550.00**
Other Equipment		**$1,056.00**

	QTY	COST
Install SCW Provided MDF/IDF Rack or Cabinet & Related Equipment onto SVS Supplied & Installed Backboard. Includes 1 Hr Rack Assembly Time	1	$506.00
Other Equipment		**$1,056.00**

Camera or Reader

	QTY	COST
Viking 8.0 v5 26BV8-V5	**4**	**$2,400.00**
Mount camera and associated hardware. Install and terminate new structured network cabling to designated camera location. Quad shielded cable, shielded termination, and grounding kit. Test, aim, and provision camera. **Applies to:** I-001, I-003	2	$1,990.00
Mount camera and associated hardware. Install and terminate new structured network cabling to designated camera location. Quad shielded cable, shielded termination, and grounding kit. Includes Unistrut channel. Test, aim, and provision camera. **Applies to:** I-002, I-004	2	$2,274.00
Electrical Box Mount for Viking; Knight; Archer v1; Archer v2; Sharpshooter; Lookout Mini; Commander I-001 thru I-004	4	$180.00
Radius 12.0 26P12-V2M	**1**	**$1,165.00**
Mount camera and associated hardware. Install and terminate new structured network cabling to designated camera location. Quad shielded cable, shielded termination, and grounding kit. Test, aim, and provision camera. **Applies to:** RA-I-005	1	$995.00
Electrical Box Mount for the Radius 12.0, Bastion 4.0 and The Judge. RA-I-005	1	$40.00
Camera or Reader		**$9,044.00**

Other Services

	QTY	COST
Alarm relay trigger cables - shielded 12/2 solid copper cable - ***Note: The addition of these two relay outputs from the NVR includes updating the alarm triggers in the NVR programming to send an output signal from the NVR to the client's Process and Control system. It does NOT include any programming of the client's system to receive the outputs and cause an action to occur.	2	$1,080.00
Other Services		**$1,080.00**

HEADEND: MDF

Total **$13,073.00**

Other Services

	QTY	COST
Proposal includes conduit and unistrut support frame to main facility conduit junctions. 1.5" 15' 30' 3/5" 80' 1/2	1	$1,637.00
Project management, quality assurance, and project mobilization costs.	1	$405.00
Other Services		**$2,042.00**

Other Services

Total **$2,042.00**

General Project Assumptions

An appointed representative, to act as a single point of contact for the SCW onsite foreman or personnel, is required. The client designee will have the authority to execute written change orders upon an agreement of both parties.
Client agrees to reimburse SCW for any fees for required vendor credentialing platforms and permits.
Proposal assumes lift or aerial platform work is not required unless specifically identified under Additional Services. If a lift or aerial platform work is included in this quote, the quoted price is limited to the period specified. A change order may be applied if delays due to adverse weather conditions or unexpected or unforeseen subsidence or unstable ground conditions requires an extension of the equipment rental period.
Unless explicitly specified elsewhere in this quote, all conduit work, trenching, pulls strings, and sleeves for all security devices will be provided by others.
Client agrees to clear all camera mounting locations and cable pathways of obstructions so that SCW can easily access the location and place ladders as necessary to perform the service in a timely and cost effective manner.
Client will provide installation personnel with access keys or escorts for SCW to perform the service in a timely and cost effective manner.
Any equipment labeled as Special-Order is not eligible for return once delivered to project site.

Project Totals

Equipment Total	**$5,830.00**
Installation Total	**$9,285.00**
Grand Total	**$15,115.00**
